The screenshot shows a dark-themed Bootstrap page. On the left, there is a sidebar with a "Favourite Languages" section containing a list: ECMAScript, Python, and TypeScript. The main content area features a large yellow "Hello Bootstrap!" heading. Below it is a quote by Steve Jobs: "Your time is limited, so don't waste it living someone else's life. Don't be trapped by dogma – which is living with the results of other people's thinking." — Steve Jobs

Wild & Wacky Vegetables

The beet is the most intense of vegetables. The radish, admittedly, is more feverish, but the fire of the radish is a cold fire, the fire of discontent not of passion. Tomatoes are lusty enough, yet there runs through tomatoes an undercurrent of frivolity. Beets are deadly serious.
